

INSPECTION REPORT REVIEW
POTENTIAL HAZARDOUS WASTE SITE

SITE NAME : NORANDAL USA, INC.

LOCATION : NEWPORT

SITE NUMBER: ARD006351464

SURVEY DATE: ___/___/___ INSPECTED BY: STATE FIT TAT OTHER: _____

LABORATORY : ___ CLP ___ EPA ___ OTHER _____

RECEIVED FROM: Lima, El DATE RECEIVED: 9/25/90

SAMPLE TYPE(s):

SOIL	SURFACE WATER	GROUND WATER	DRINKING WATER
off / on -site	off / on -site	off / on -site	off / on -site

CONTAMINANT(s): Organics Inorganics Radionuclides Microbiological

FOLLOW UP (Y/N):

<u>Y</u> (Re)Sampling Requested	<u>Y</u> Locate Drinking Water Sources
<u>N</u> Further Action is URGENT	<u>Y</u> Keep Site Active ("N"=No Further Action)
	<u>Y</u> Concur with Report Recommendations

SUMMARY:

This is a preliminary site assessment (no lab data). Potential contaminants include solvents and rolling oil (norpar, kerosene and mineral spirits). There are 8 on-site underground storage tanks with a total capacity of 80,000 gallons and two 1,000 gallon mobile storage tanks. Because of the nature of this site, we request sampling be conducted at the site of wells representative of the area (if any). This site also needs to be reviewed by the Underground Storage Tank group of EPA. Any leakage from the tanks needs to be determined and compliance with any UST regulations needs to be evaluated also. Further recommendations will depend on the results of the initial sampling.
